The Customer shall fulfil the obligations set out in these Special Terms and Conditions as well as other

obligations than those stated here that may be incumbent on the Customer and which may, for example, be stated in the Customer Assignment or SGB.

3.1 Mandatory Consignments in e-Boks

Should the Customer have a direct agreement with its customers, employees or users regarding delivery in their e-Boks, the Customer must be able to document to PostNord Strålfors and e-Boks that the Customer's customers, users or employees have been duly informed about the mandatory delivery of documents in their e-Boks.

The Customer is likewise responsible for duly informing its customers, users and employees that they are responsible for activating their e-Boks, which is a precondition for the ability to read the digital consignment.

Customers can only start to use the Service once PostNord Strålfors has received a complete, signed Customer Agreement and after the agreed tests have been performed and approved.

If the Customer fails to fulfil its obligations under the plan for production commissioning, PostNord Strålfors shall be entitled to invoice the Customer for time spent, calculated by the hour, in accordance with PostNord's prevailing price list.

3.2 Production basis

The Customer shall supply the production basis in the manner specifically agreed in the Customer Assignment and in other documentation provided by PostNord Strålfors. The Customer is additionally responsible for ensuring that the production basis is complete, correct and delivered on time.

The Customer bears the risk and responsibility for ensuring that the production basis reaches PostNord Strålfors.

If the production basis is incomplete or incorrect to such an extent that PostNord considers it impossible to perform production, PostNord Strålfors shall contact the Customer to give the Customer the opportunity to complete the basis or to deliver a new one. If, in PostNord Strålfors' assessment, a defect in the production basis can be rectified by PostNord Strålfors, then PostNord Strålfors will have the right, – although not the obligation – to do so against payment in accordance with PostNord Strålfors' prevailing price list. In such cases, PostNord Strålfors shall accept no liability for any delays or irregularities that may arise.

3.3 Customer Assignment

The tasks encompassed by the Customer Agreement are stated in the Customer Assignment attached to the Customer Agreement. If, while the Customer Agreement is in effect, the Customer wishes to supplement a new Customer Assignment which, in PostNord Strålfors' assessment, affects the calculation of the price, terms and conditions of the Customer Agreement, the relevant adjustment shall be made through a written supplementary agreement.

The Customer may request changes to the Customer Assignment in the form of a Change Request with respect to the Service or Option, and pursuant to the provisions set out in the relevant Customer Assignment. PostNord Strålfors shall debit the Customer for the Change Request in accordance with PostNord Strålfors' prevailing price list. Change Requests shall be agreed in writing between the Parties through the preparation of a new Customer Assignment if the Parties or the scope of the changes require such. PostNord Strålfors confirms such changes by actually implementing the change and notifying the Customer.

PostNord Strålfors reserves the right, having notified the Customer of such, to change its operating methods, technical specifications, systems, opening hours, structure, etc. Messages regarding any such changes shall be sent to the Customer in reasonable time, taking into account the nature of the change(s) in question.

PostNord Strålfors is not liable for any faults or delays arising during such shutdowns.

If, for any reason, PostNord Strålfors fails to rectify the error, the Customer shall be entitled to a reduction in the price for the Service corresponding to the payment for the defective documents. If PostNord Strålfors rectifies an error and this results in the delay of a document, the provisions of Section 5.2. below concerning Delay shall not apply.
